 LinkedIn

Passionate French Front-End Developer with 3 years of experience in security and e-commerce industries, working on mobile and desktop applications, refactoring website to be responsive.

## JOBS

### Inwebo - Front-End Developer (March 2018 - April 2020) - 2 years

- Develop features and maintain desktop and mobile applications using different stacks (Electron, Ionic v1 (Angularjs), Ionic v3/v4 (Angular X))
- Create an Express.js server embedded in an Electron authentication application establishing connection between the browser and the application
- Work on process of customization of the main authentication application (mobile and desktop) in order to produce and deliver to customers their own packages of the main applications
- Industrialize the build process of customized applications (mobile and desktop) using a Node.js script. The script clones the project from the repository, builds the artifacts of all customization directories available, deploys the artifacts on a server and send a report by email with build and deployment status
- Develop the new administration console with Ionic v4 (Angular X) and Electron consuming Inwebo's API

### Beauteprime - Front-End Developer (2017-2018) - 1 year

- Work on responsive refactoring of the website using Foundation CSS framework
- Improve the front-end development environment implementing a package manager, a task runner, a bundler and a transpiler
- Integrate templates in PHP
- Implement CSS code structure BEMIT (BEM + ITCSS) in order to harmonize the codebase
- Create reports about best practices in e-commerce environment (scalability, SEO, performance)
- Update jQuery version and libraries related using it as dependency

### Dailymotion - Office Manager / Executive Assistant (2014-2017) - 3 years

### Numberly - Office Manager / Executive Assistant (2013-2014) - 1 year
